-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Species III in the reply filed on 4/19/06 is acknowledged.

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1 and 3-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hung et al (US 6,979,886) in view of Brusic et al (US 5,960,251).

Hung discloses in Figs. 4B-4C molding an array, singulating along S-S, externally connecting to a PCB, 32 is an exposed die paddle, except for applying an organic solderability preservative (OSP) to the cut portions, applying heat, soldering the IC to a PCB by applying molten solder, OSP is dipped or sprayed after singulating, using die and punch, etching to clean, and imidazole as an OSP.

Brusic discloses applying an organic solderability preservative (OSP) to the cut portions, applying heat, soldering the IC to a PCB by applying molten solder, OSP is dipped or sprayed

after singulating, etching to clean, and providing imidazole as an OSP (col. 2, lines 45-46; col. 6, lines 43-67 and col. 7, lines 1-51).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Hung by applying an organic solderability preservative (OSP) to the cut portions, applying heat, soldering the IC to a PCB by applying molten solder, OSP is dipped or sprayed after singulating, etching to clean, and providing imidazole as an OSP, as taught by Brusic, for the purpose of protecting contact surfaces from corrosion.

It is old and well known in the art to singulate by using die and punch, sawing, laser cutting, breaking, shearing, etc.

Conclusion

5. Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity (optional). Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rick K. Chang whose telephone number is (571) 272-4564. The examiner can normally be reached on 5:30 AM to 1:30 PM, Monday through Thursday.

Art Unit: 3729

The fax phone numbers for the organization where this application or proceeding is assigned are (571) 273-8300 for regular communications and (571) 273-8300 for After Final communications.

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke at the end, positioned above the printed name.
